

## Projects – big dreams

### Products used

Blue card  
Pattern paper Contempo: Panama lounge  
Rub ons – Emilys garden collection

### Step one

Begin with a blue card – round the bottom corners and put aside for now.

### Step two

Cut a 14cm x 9.5cm piece of pink paper and round bottom corners. Cut a brown spot piece 13cm x 8cm and also round the bottom corners. Attach the brown spot to the centre of the pink paper and machine stitch around the edge.

### Step three

Now we will create some flowers for the front by making a little stack of circles as so – Cut two of each, as we are making two flowers - Firstly a brown 4.5cm diameter circle then a pink 3.5cm diameter circle and finally from the paper with flowers on it, cut a 2.5cm circle and capture a little pink flower in the centre. Scrunch up all the circles and then smooth flat again to add some texture.

### Step four

Cut two stalks with leaves attached from pattern paper.

### Step five

Now position the stalks with leaves toward the left side and attach. Machine stitch the stalks in

## Projects – big dreams

place. Add the little flower circles to the top of the stalks and stitch around the edge of the small inner circle, stitching through all layers.

### Step six

Add a little 'big dreams' rub-on sentiment to the right side of the flowers and cut a small glitter butterfly from the butterfly paper in the Panama lounge pack and add above the rub-on.

### Step seven

The final step is to attach it all to the front of the blue card. All of the machine stitching is neatly hidden now.
