

# Projects - Goodtimes

## Products used

White tall card  
Grace Taylor paper – Contempo, Panama  
Lounge  
Journal tag

## Step one

Begin with a tall white card.  
Cut a piece of pink spot pattern paper from the Contempo collection 7.5cm x 20cm - attach this to the front of the card – (you will have a small white border of card showing around all four sides.)

## Optional step

Machine stitch around the outside edge of the pink paper to add some interest and texture.  
**Note:** cut a rectangle of paper in a coordinating pattern slightly smaller than the inside front of the card and attach over the stitching so that the card looks nice and neat inside.

## Step two

Now we can add in some more pattern paper and decorate the front. Working from the bottom up: Add a pink pattern paper block which measures 6.5cm x 5cm , then add the 'Good times' journal tag. Finally add a block of blue pattern paper which measures 6.5cm x 4cm. Once you are happy that they are spaced evenly, attach.

## Step three

From the butterfly pattern paper cut a large pink butterfly and attach toward the top of the journal tag – mine overlaps the edge of the card slightly. Note: be careful with the cutting so that the little antenna stay attached.
